Germans Ermīcs Sunburst Chair

presented by Galerie Maria Wettergren

Galerie Maria Wettergren

Maria Wettergren opened her gallery in 2010 in Saint-Germain-des-Prés, Paris, and specializes in contemporary Scandinavian design and art. This sculptural glass chair in flaming colors, Sunburst Tall Glass Chair, expresses the delicate balance between two clashing polarities: A perceived fragility and an imagined state of solidness. The result is a sublime frozen moment between stability and collapse.
